Heavy-Built Performance

## SERVING THE FLOORING, WOODWORKING & MOULDING INDUSTRIES SINCE 1930

Are you ready for “heavy-built performance?” HASKO flooring, rough-mill and woodworking machinery incorporates robust engineering, state-of-the-art 21st Century technology and the industry’s best service and support. Our goal is to ensure that our customers maintain a competitive advantage in a challenging global manufacturing environment.

HASKO has delivered hundreds of machines to customers who demand the ultimate in accuracy, efficiency, productivity and performance. When you buy from HASKO, there is no middleman — you deal directly with the manufacturer. Call us to see how our custom machine solutions and automation expertise can help your company improve yield, reduce labor, and improve efficiencies and output.

We specialize in designing and manufacturing heavy-built machines for the following industries:

- Flooring: engineered wood, solid wood, and truck flooring
- Lumber ripping systems
- Moulding industry
- Dimensional wood/furniture
- Laminated beams
- General woodworking

Heavy-Built Performance

## Hasko HSSC CHOPSAW

# Hasko HSSC CHOPSAW

The HSSC delivers the same reliable performance that customers have come to expect from Hasko equipment because of its robust design and rugged construction. It is appropriate for rough or planed hardwood and softwood.

## FEATURES

The most durable and rugged design automatic saw offered to the wood working industry
Top Mounted Saw Improves saw life
Will also handle rough un-planed hardwood, softwood and engineered wood
Quick Clear Function opens rolls for fast, easy access to clear the machine & return to run ready
"Green" We utilize technology that regenerates power when boards are being decelerated. This feature allows the HASKO HSSC 15-30% better efficiency than machines lacking this technology.
Made in the USA with fast service and support

## SPECIFICATIONS

Capacity: 7" wide x 2" thick
Feed speeds: up to 1,500 feet per minute
Feed rollers: (10) Servo driven feed rolls
Accelerate/decelerate max: 3000"/S <sup>2</sup>
Saw stroke actuation: (1) 16.6 HP Servo motors
Saw stroke cycle time: .200 seconds
Saw cut accuracy: cut to cut .03"
Internal waste ejection: up to 28" inside the machine
Floor space: 80" x 48"
Weight: 7,500 lbs
Solution inputs: via scanner/optimizer or mark reader

**The HASKO HSSC also utilizes the latest in safety technology:**

- NEMA Standards
- Bosch/Rexroth Servos, Drives, & PLC
- 24VDC control
- Interlocks and controls to ensure the highest degree of operator safety
